

Corporate Profile

A Leading Title Insurance Provider for More Than a Century

Stewart Title Guaranty Company stands proudly as one of the largest title insurers in the world. With more than a century of experience, Stewart Title has become a leader in the international title insurance industry with products available worldwide in more than 80 international markets.

A Canadian Choice

A leader in the Canadian title insurance market, we have become the preferred choice for many legal professionals who have simply come to know and trust Stewart Title as a qualified partner and reliable insurer that delivers results.

As the underwriter for the majority of title insurance policies ordered by lawyers/notaries in Canada, we serve a network of thousands of lawyer/notary customers and maintain a significant portion of the Canadian title insurance market.

Our goal as a title underwriter is to provide products and services that enhance the real estate closing process. Our unwavering philosophy is that the role of a title insurer in Canada should be to underwrite risk, allowing lawyers/notaries to provide legal advice and prepare documents. Stewart Title does not support programs that reduce or eliminate the lawyer's/notary's role in real estate transactions. After all, our founder was a lawyer!

Experience Counts

We provide a full range of title insurance products, offering both residential and commercial title insurance for projects as diverse as residential complexes, resorts, office buildings and national retail shopping mall chains. Our associates are knowledgeable in working with legal professionals to deliver customized solutions that benefit everyone. Additionally, we provide competitive pricing, unsurpassed policy coverage and value-added services.

At Your Service

You can trust Stewart Title to provide high quality service and value. We are passionate about bringing a responsive attitude to both residential and commercial transactions. Our Underwriting Department uses a creative approach that focuses on finding solutions to assist legal professionals in closing their real estate transactions.

Technology Makes a Difference

Stewart Title has built technology applications that truly focus on the needs of our customers to streamline real estate practices. Our technology applications simplify and expedite the title insurance ordering process enabling legal professionals to retrieve their title insurance policies quickly and with ease.

Protection You Can Depend On

A large global title insurer, Stewart Title is renowned for its comprehensive protection, financial strength and claims paying ability. Our claims handling experience ensures that we deal with each claim in a timely manner by employing a practical and results-oriented approach. In Canada, Stewart Title is regulated by the Office of the Superintendent of Financial Institutions.
