

Search Services Powered by ESC

An online Search Services solution to assist with due diligence efforts

In keeping with our philosophy of partnering with legal professionals and providing technologies and services that help you mitigate risk, we are excited to announce another innovative service to streamline processes and reduce costs.

In partnership with ESC Corporate Services (ESC), we are now offering you online centralized access to public record data to assist with your due diligence efforts.

The range of online Search Services includes:

- Bank Act Search
- Bankruptcy Search
- Certificate of Status
- Copies of Articles
- Corporate Profile Search
- Litigation Search
- PPSA Registration
- PPSA Search
- Writs of Execution

Fast. Accurate. Secure. Flexible.

Our competitively priced Search Services offer:

A one-stop source – pulling data from a national index, search results are presented accurately, securely and in a timely manner

Flexibility – can customize servicing bundles and provides the option of searching by PIN, exact municipal address, exact owner's name/city and instrument number

Ability to minimize errors – users can pre-populate debtor names within a security registration ensuring that the name of the business or corporation is correct from the outset, removing the potential for transcription errors or verbal misunderstanding

Efficiency – real-time access to public record data saves the time of having to register and order searches from different sites or government offices; search summaries are delivered immediately

Reliability – displays verbatim, as within record, accurate names and details

Reduction in costs – as a Stewart Title client you benefit from the most competitive fees in the marketplace

Support – our partnership with ESC provides you with access to their team of experienced professionals for support with registry legal fulfillment knowledge and search filings

Powered by a solid partner

To offer this service, Stewart Title has chosen to partner with ESC, a leading solutions provider of public record data, customer authentication and corporate legal services through innovation, technology and deep domain expertise.
