

CONNECT WITH A SEASONED ALLY IN THE ENERGY SECTOR

Trusted partners can be hard to find. Especially when dealing with real estate transactions in the energy sector. The information is complex, and being selective about your title company is crucial.

At Stewart Title, our business is about more than title insurance. It's about relationships – building and sustaining them.

When you partner with us, you get a team of highly skilled Underwriters, Law Clerks and seasoned Business Development Managers who work with you to understand the complexities of your deal, find solutions to reduce risk and help you close efficiently and with confidence.

In the event your transaction involves numerous sites and requires multiple title policies, not to worry. We can handle that too.

Our knowledgeable energy team can work with you and provide guidance in these areas:

- Cogeneration Plants
- Pipeline Transactions
- Solar Farms
- Wind Projects
- Fossil Fuel/Natural Gas Power Plants
- Hydro Electricity Projects
- Energy Projects on First Nations Land and Crown Land

When you're ready to get started on your next energy deal, call one of the most experienced and qualified teams in the industry. Call Stewart Title.
